

Foremost® Grasses

PENNISETUM 'Fireworks' pp18504

NEW VARIEGATED FOUNTAIN GRASS! LIGHTING UP RETAIL SALES!

Considered as the Best New Variety of 2008 by Colorado State University's Trial Gardens, the university noted their plants performed well through a heat streak of 90+ days in July and little water through August. The researchers noted the plant looked good early in the season, even before the plumes appeared.

- This new Pennisetum features vivid sprays of color that explode like bottle rockets, and wine-red plumes like *4th of July Fireworks!* Adds stunning color to any garden!
- Grows well in containers or directly in garden beds.
- Perfect mid-sized, upright mounding habit.
- LOVES SUN & HEAT!
- Blooms late season with stunning bottlebrush flowers spilling over a cascading mound of multi-hued foliage.
